

# PRESENTATION AND DEMONSTRATION 2020- 2021

## Online Arrangement

**Online Submission by 20th April 2020 at 12:00 (noon)**

Items to submit:

1. Produce PowerPoint Presentation slides (approx. 10 slides long) to cover: **a)** the presentation about the project and the project process, and **b)** demonstration of your application/program.
2. Create a video presentation out of your slides (max 10-minute long) to present and demonstrate your project. (Panel to spend 10 minutes to watch your video. So, the video must not exceed 10 minutes.)

A panel of three-member will assess the submitted items:

Final presentation and demonstration (35%) Revised Marking Criteria for Online Submission:

Presentation and Demonstration criteria	Mark (100%)
<b>Presentation structure and content quality</b> (introduction, presentation structure, content order, content balance, content distribution, planning, problem definition and objectives, results, conclusions, presentation length, citation of sources, project process, self-reflection) <ul style="list-style-type: none"> <li>• Poor</li> <li>• Average</li> <li>• Satisfactory</li> <li>• Very good</li> <li>• Excellent</li> <li>• Highly innovative</li> </ul>	<b>30</b>  0 – 10 11 – 14 15 – 17 18 – 21 22 – 26 27 – 30
<b>Technical content</b> (clear scope and purpose of the application/program, logical navigation and clarity of explanation of application/program, innovative functions/features) <ul style="list-style-type: none"> <li>• Poor</li> <li>• Average</li> <li>• Satisfactory</li> <li>• Very good</li> <li>• Excellent</li> <li>• Highly innovative</li> </ul>	<b>30</b>  0 – 10 11 – 14 15 – 17 18 – 21 22 – 26 27 – 30
<b>Functionality and performance</b> (results correctness toward the intended purpose, appropriate user interface (if any), visualisation, algorithms, reliability, completeness) <ul style="list-style-type: none"> <li>• Poor</li> <li>• Average</li> <li>• Satisfactory</li> <li>• Very good</li> <li>• Excellent</li> <li>• Innovative</li> <li>• Outstanding</li> </ul>	<b>40</b>  0 – 15 16 – 20 21 – 24 25 – 30 31 – 35 36 – 37 38 – 40

**How to Create Videos:**

To prepare a video presentation and demonstration, you can use PowerPoint. You can also insert recorded (screen capture) video into PowerPoint. PowerPoint gives the option to record slides and convert them to MP4. This gives you the flexibility to modify, edit, correct things. On macOS, you can also use keynote to do the same.

Other easiest way is to use Zoom (call yourself) other similar software, e.g. MS-Teams, Skype) and record the shared screen.

**Balance of presentation and demonstration content:**

This depends on what project you are doing. Here, your supervisor may advise the best.
